North American  Partners in Anesthesia

Put your career  
in high gear

North American  Partners in Anesthesia

# NAPA.

The job you deserve.  
The profession you love.

NAPA is the leading and most progressive private practice anesthesia group in the country.

We know you. As anesthesia professionals ourselves, we know what's important to you, on and off the job. And whether you're just entering a practice, or if you've been in practice with a group for a while now, we can offer stability with unparalleled opportunities for professional, financial and personal growth.

We're North American Partners in Anesthesia (NAPA). And we're actively recruiting highly-qualified anesthesiologists. We know that every practice has its own challenges — from a highly charged tertiary center to an acute care hospital in a rural setting. We want to find the right fit for you, in the profession you love.

## A specialized view. A progressive vision.

At NAPA, we're 100% anesthesia-focused. Owned and operated by anesthesiologists who understand your needs, our depth of experience, breadth of hospital partners and anesthesia professionals, and our continued growth provide a unique opportunity for applicants.

We'll work with you to find just the right fit — and with our strong hospital partnerships, chances of finding that fit are good. In addition, our size — and our geographic and clinical diversity — enable us to custom-fit a package to meet nearly any physician's personal and financial needs and professional goals. Best of all, by managing all of the administration and business infrastructure of a practice, we'll take care of business so you can do what you do best (and have a life outside of the operating room as well).

## Specialists in Anesthesia Solutions.

North American Partners in Anesthesia is the leading and most progressive private practice anesthesia group in the country, currently providing anesthesia services at dozens of hospitals, Ambulatory Surgical Centers and physician office sites across multiple states, and administering a successful chronic pain management program, North American Partners in Pain Management.

Founded in 1986, NAPA has grown to become an industry leading, multi-faceted anesthesia group, demonstrating long-term clinical and business acumen to help many of the nation's leading hospitals and skilled physicians achieve operational and administrative excellence without compromise.
