

A respected leader. A trusted partner.

Founded in 1986, NAPA is the largest, most progressive and multi-faceted private practice anesthesia group in the country. Owned and operated by anesthesia professionals, NAPA's fully portable structure can allow anesthesia groups of all sizes to immediately add a strong set of core clinical practices to those already in place, while at the same time increasing business competencies and negotiating experience with outside payers.

We currently provide anesthesia services at dozens of hospitals, numerous Ambulatory Surgical Centers, multiple physician office sites, as well as administering a successful chronic pain management program, North American Partners in Pain Management.

With our exceptional clinical and business acumen, NAPA helps many of the nation's top hospitals and skilled physicians achieve operational and administrative cost-efficiencies without compromise.

Your partner in practice.

To find out more about NAPA, our affiliates, and how we may be able to help you and your practice, please feel free to call us at **(888) 240-1793** or visit our website at www.NAPAanesthesia.com.

**Your complete
anesthesia solution**

NAPA. Specialists in Anesthesia Solutions

At North American Partners in Anesthesia, (NAPA), while we may be highly-qualified anesthesia professionals, we're also specialists in other areas.

Such as providing expert anesthesia services to hospitals, Ambulatory Surgical Centers, and physician office sites throughout the U.S. and providing high-quality billing and management services to anesthesia and chronic pain practice groups, so they can concentrate less on the business of running a practice and more on the delivery of patient-focused care.

Above all, we're specialists in attracting and serving the highly-skilled and dedicated anesthesia professionals – physicians and CRNAs alike – who have helped to make NAPA the leading group of its kind in the nation.

Clinical Services.

Since its inception in 1986, NAPA has built a strong reputation for the delivery of high-quality surgeon and patient-friendly anesthesia services – which in turn continues to enhance the reputation of our hospital partners, increasing both surgeon and patient satisfaction.

We draw from our pool of hundreds of highly-skilled anesthesiologists and CRNAs to provide coverage for your anesthesiology needs. And our broad perspective and experience can enable you to achieve efficiencies and improved utilization, leading to cost-savings without compromising your high standards of patient care.

Practice Management Services.

Our full-service management and billing company, NAPA Management Services Corporation (NMSC), can provide quality-based, cost-effective and customer-centered services with an unprecedented level of experience and professionalism.

Structured to be flexible and fully portable, NMSC enables medical groups to obtain administrative, management, and billing services, through either short- or long-term agreements, by purchasing a complete package of services or, by purchasing a specific service(s), as the client's particular needs require.

With the collective experience of our senior staff members, NMSC has an established track record of proven success in providing the largest and fastest growing anesthesia group in the country with services such as: accounting and finance, analytical services, benefits administration, physician and nurse (CRNA) contracting services, credentialing, human resources, information technology, legal services, marketing, practice management, and much more.

Billing and Collection Services.

NMSC currently bills over \$500 million annually for anesthesia, pediatrics, chronic pain management and office-based anesthesia services. With turnaround times that exceed industry standards for accounts receivable, NMSC has out-performed industry norms by following stringent internal policies and procedures to collect revenues in the most cost-efficient manner possible.

Offices on Long Island and in Syracuse, New York, enable NMSC to easily and effectively assume the accurate billing and timely collection responsibilities for any size medical practice.

Group Consolidation Services.

Using our proven track record of success in multiple consolidation efforts as a model, NMSC can efficiently help medical groups progress with consolidation efforts in nearly any specialty and market. NMSC has the ability to guide medical professionals through the processes and procedures of group consolidations; from feasibility studies, to governance, to project planning and implementation.

NMSC's breadth of experience can help medical groups learn how consolidation may assist them in gaining economies of scale, clinical and business best-practice exchanges, increased efficiencies, and relationships with payers.

Office Anesthesia.

Through NAPA Ambulatory Anesthesia Services (NAAS), we offer exceptional anesthesia services to independent ASCs, multi-specialty groups, and individual physician offices.

We apply the same strict, well-defined standards and high levels of patient care when administering anesthesia in an office setting as we do in a hospital. In addition, NAAS is unique in its ability to provide seamless anesthesia staffing and coverage for your site, without interruption or delays in service due to illness or vacation time.

Above all, our anesthesiologists are always professional, courteous, thorough, and accountable, because your patients deserve nothing less than the best.
