Specialists in Anesthesia Solutions.

NMSC is an affiliate of North American Partners in Anesthesia, LLP, the leading and most progressive private practice anesthesia group in the country. Founded in 1986, NAPA has grown to become an industry leading, multi-faceted anesthesia group demonstrating both the clinical and business acumen to help many of the nation's leading hospitals and skilled physicians achieve operational and administrative cost-efficiencies without compromise.

To find out more about NAPA, our affiliates and how we may be able to help you and your practice, please call us at (888) 240-1793 or visit www.NAPAanesthesia.com.

Practice Management Services

Build a
healthier practice

NAPA Management  Services Corporation

NAPA Management  Services Corporation

NMSC.

The specialists in practice management.

In a profession that demands high levels of skill and compassionate care, trust a specialist to be as committed to keeping your practice healthy as you are to keeping your patients healthy.

We're **NAPA Management Services Corporation** (NMSC), an affiliate of North American Partners in Anesthesia. And we specialize in providing quality practice management services to medical groups. This includes a wide array of services for practices of all sizes, from full-service administrative support to comprehensive billing and collection services, compliance, human resources and much more.

Billing and Collection Services.

NMSC currently bills over \$500 million annually for anesthesia, pediatrics, chronic pain management and office-based anesthesia services. With turnaround times that exceed industry standards for accounts receivable, NMSC has outperformed industry norms by following stringent internal

policies and procedures to collect revenues in the most cost-efficient manner possible.

Offices on Long Island and in Syracuse, New York, enable NMSC to easily and effectively assume the accurate billing and timely collection responsibilities for any size medical practice.

Group Consolidation Services.

Using our proven track record of success in multiple consolidation efforts as a model, NMSC can efficiently help medical groups progress with consolidation efforts in nearly any specialty and market. NMSC has the ability to guide medical professionals through the difficult legal and regulatory processes and procedures of group consolidations; from feasibility studies, to governance, to project planning and implementation.

NMSC's breadth of experience can help medical groups learn how consolidation may assist them in gaining economies of scale, clinical and business best-practice exchanges, increased efficiencies, and enhanced relationships with payers.

Consulting Services.

Whether you need to reduce overhead, improve collections, create a custom compliance plan, recoup lost revenue, or even reduce exposure to fraud and abuse, NMSC's consulting unit can help you appraise functionality and develop pathways to improve patient care and business practices.

Our consulting packages include: Anesthesia Staffing and Operating Room Efficiency Reviews; Billing, Coding and Documentation Audits; Feasibility Studies and Other Analysis; Compliance Implementation and Creation; and Educational In-Services — which can keep your staff current on all issues pertinent to anesthesia and chronic pain management.
